SUBJECT: Engineering Evaluation Cost Analysis for the former Lake Ontario Ordnance Works Site

Dear Interested Citizen:

The Engineering Evaluation/Cost Analysis (EE/CA) report for a proposed Interim Removal Action, and Administrative Record File for the former Lake Ontario Ordnance Works Site have been issued for public comment. This EE/CA is associated with a drum trench and trash pit at the former LOOW Site that are located on Chemical Waste Management property, 1500 Balmer Road, Lewiston, New York.

The former Lake Ontario Ordnance Works Site is a 7,500-acre parcel located within the townships of Lewiston and Porter, Niagara County, New York. The site was used in the early 1940's by the Federal government for production and storage of trinitrotoluene (TNT). The U.S. Army Corps of Engineers is addressing environmental contamination at the site caused by Department of Defense activities under the Defense Environmental Restoration Program for Formerly Used Defense Sites.

Five alternatives were considered for this project. The preferred alternative has been determined to be protective of human health and the environment, and is believed to provide the best balance among the alternatives evaluated. The preferred alternative includes excavation of drums, containers and debris from the drum trench and trash pit, and disposal of excavated materials at legally permitted treatment, storage or disposal facilities.

The Administrative Record File for the former LOOW Site has also been released for public comment and is available in the Lewiston Public Library, 305 South Eighth Street, Lewiston, New York; the Youngstown Free Library, 240 Lockport Street, Youngstown, New York; and the U.S. Army Corps of Engineers Public Information Center, 1776 Niagara Street, Buffalo, New York. The Administrative Record File includes the EE/CA and provides the public with access to site-related information that was used to develop the preferred alternative.

Executive Office

SUBJECT: Engineering Evaluation/Cost Analysis for the former Lake Ontario Ordnance Works Site

The EE/CA is available on our website at:

<http://www.lrb.usace.army.mil/loow/document.htm>

The public comment period for the EE/CA and the Administrative Record File is from September 11, 2000 to October 10, 2000. A public meeting will be held upon timely request. Written comments will be accepted if postmarked by October 10, 2000, and should be sent to the U.S. Army Corps of Engineers, Public Information Center, 1776 Niagara Street, Buffalo, New York 14207-3 199.

If you require any additional information regarding the former Lake Ontario Ordnance Works Site, please contact my Public Affairs Office at (716) 879-4438.

Sincerely,

A handwritten signature in dark ink, appearing to read "Glen R. DeWillie". The signature is fluid and cursive, with the first name "Glen" and last name "DeWillie" clearly distinguishable.
